MOONCOIN (MNC) WHITEPAPER

MNC a next-generation of digital asset

WHAT IS MOONCOIN (MNC)?

Abstract

MOONCOIN (MNC) is a next-generation digital asset designed to deliver fast, secure, and cost-efficient payment solutions while serving as a versatile utility token across decentralized ecosystems. Built on the BEP20 network, MNC combines accessibility, scalability, and community-driven growth. With its dual focus on payment processing and utility integration, MOONCOIN powers the MOONEX Exchange, a secure and innovative platform for digital asset trading. Together, they create a self-sustaining ecosystem that drives adoption, liquidity, and long-term value.

INTRODUCTION

MOONCOIN (MNC)

The global payment and exchange landscape faces challenges such as high transaction fees, slow cross-border settlements, and fragmented trading ecosystems. Traditional financial systems are centralized, creating barriers for new users and limiting financial inclusion.

MOONCOIN ADDRESSES THESE CHALLENGES BY:

Enabling borderless digital payments with near-instant settlement.

Providing low transaction fees suitable for micro and macro payments.

MOONEX EXCHANGE

Introducing Moonex Exchange

MOONEX Exchange is a native crypto trading platform where MNC is the core utility and fee-reduction token.

MOONEX
India's No1 crypto exchange
